RISK MANAGEMENT AND INSURANCE POINTS OF PRIDE

PROGRAM REPUTATION

• The Terry College’s Risk Management and Insurance Program, which traces its history to 1965, today stands as the largest undergraduate program of its kind in the nation.

• We have consistently been ranked one of the top 3 insurance programs in the country by U.S. News & World Report.

• Our success has been bolstered by a strong relationship with industry partners. Employers say they value Terry RMI graduates for their strong analytical skills and their ability to apply those skills in real situations. Many employers comment that Terry’s RMI graduates “hit the ground running.” Our alumni, which we refer to as the Georgia Network, are big proponents of our program and enthusiastically hire our graduates.

• Our average graduating class numbers nearly 200. Newly minted Terry alums are equipped to take on a variety of positions in the industry, such as insurance adjusters and underwriters, actuaries, insurance brokers and agents and personal financial planners, as well as analysts in corporate management. In addition to graduating about 10 MBA students per year, Terry RMI has one of the largest PhD programs in the nation.
