APPLY YOUR BIG DATA SKILLS

Applied learning is essential to our MSBA program giving the opportunity to apply theoretical concepts and analytical skills to real-world business problems.

CAPSTONE PROJECT

Each spring semester, capstone projects enable MSBA students to put their technical and storytelling expertise into practice, while developing critical interpersonal and communication skills through collaborative teamwork. These 15-week experiential learning projects allow students to work closely with companies to create data-driven solutions for their business matters.

THE CAPSTONE PROJECTS ENTAIL:

- Demonstrating the ability to analyze data
- Drawing insights
- Communicating findings
- Making recommendations to companies that are relevant to the business context
- Preparing an implementation plan
- Delivering an executive summary

CAPSTONE PARTNERS (EXAMPLES)

DELTA	UGA BASEBALL
CATERPILLAR	NSTA
FLEETCOR	UNITED WAY
HENNESSY	BLUE BIRD
ASSURANT	AD VICTORIAM SOLUTIONS
CINE	

I was beyond impressed with both teams' presentations.

It was quite obvious that you put a considerable amount of effort in the projects. I am excited about next steps that will be taken with the information that was presented – great thought leadership.”

– FLEETCOR

We enjoyed this year's process very much, and appreciate this

opportunity to meet and work with so many young brilliant minds! You certainly left a lasting impression for yourselves and for UGA as a whole.”

DISTINGUISHED FACULTY

1

With faculty from several departments within the Terry College of Business, the Georgia Analytics program is a truly interdisciplinary experience. Leaders in their fields, faculty publish cutting-edge research, edit various publications, and serve in numerous leadership roles. Sought after for expertise by many companies and media outlets, they network extensively with the business community.

Dr. Hani Safadi is an Associate Professor in the Terry College of Business Department of Management Information Systems.

MSBA STUDENT SPOTLIGHTS

ANDI BROCK (BBA '22, MSBA '23)

"As a UGA MIS graduate, the MSBA program at Terry College was a natural next step in furthering my professional skill set. The lifelong relationships fostered with classmates, instructors, and staff prove invaluable connections in today's highly competitive workforce. In only a year, the MSBA curriculum advanced my growing passion for utilizing data to inform strategic decisions and simplify complex stories to heights I could not have reached without its impact. Aside from the technical expertise gained, my sharpened interpersonal acumen will benefit me immensely as I step into client-facing roles."

IAN LEVIN (BBA '23, MSBA '23)

"My initial introduction to the MSBA program came from my real estate valuation professor, who sparked my curiosity about the program. I saw it as an opportunity to acquire the necessary skills to analyze big data and produce valuable insights within my areas of interest – real estate, capital markets, and valuation. Obtaining the MSBA degree has made my job applications more competitive and provided me with the technical expertise to succeed. Through the program, I have developed professionally and built meaningful relationships that will undoubtedly contribute to my future success."

MSBA STUDENT SPOTLIGHTS

ISHA NAIDU (BS '22, MSBA '23)

"After completing my undergraduate studies in Computer Science and Psychology, I aspired to pursue a career that would merge technology and business. When I came across the MSBA program at Terry, I knew it was the best opportunity to enhance my technical skills while learning about fundamental business concepts. The program has been instrumental in refining my soft skills, including project management, communication, organization, and time management. It has equipped me with the practical knowledge necessary to excel in industry roles, such as technology consulting, data analytics, and business development."

EMMANUEL CHARLES (BBA '22, MSBA '23)

"Earning an MSBA degree has provided me with the necessary skills to excel in the ever-evolving digital age, where technology is integrated into every aspect of business operations. The program has exposed me to cutting-edge technologies and tools, providing me with hands-on experience and practical skills I can apply in my future career. The skills and knowledge I have gained through my studies will help me become a valuable asset to any organization, and I can confidently pursue a career in various industries."
