<u>1. Mission</u>	<u>2. Key Facts</u>	<u>3. Industry Thought Leadership</u>	<u>4. Practitioner Mentorship</u>	<u>5. Technology Roundtable Discussion Events</u>
<u>6. Scholarship</u>	<u>7. Teaching</u>	<u>8. Institutional Service</u>	<u>9. IS Academic and Practitioner Community Service</u>	<u>10. Youth Development & Mentorship</u>
<u>11. Education</u>	<u>12. Professional Certifications and Fellowships</u>	<u>13. Professional Affiliation</u>	<u>14. Work History</u>	

1. MISSION

Strive to make a transformational impact at a global level through scholarship and leadership.

More specifically,

- Provide thought leadership that enables organizations optimally leverage technology and related assets.
- Enhance cyber security awareness and preparedness of organizations and individuals.
- Contribute to the development and growth of current and future business and technology leaders.
- Facilitate different forms of collaboration and value creation between academia and practice.

2. KEY FACTS

1. Interest and expertise lie in the various facets of information technology management – from technology sense-making to implementation and change management, data literacy and analytics, internal controls, information security, and performance measurement. Current focus is on cybersecurity and enterprise digitization.

2. Author of forthcoming book [Cybersecurity Readiness: A Holistic and High-Performance Approach, SAGE Publishing, March 2021](#). The book has received [strong endorsements from distinguished practitioners and academics](#).
3. Noted [Information Systems thought leader](#) and tenured professor at The University of Georgia. Work published in prestigious outlets that include *The Wall Street Journal*, *MIT Sloan Management Review*, *MIS Quarterly*, *Journal of Management Information Systems*, *California Management Review*, and *Business Horizons*. One particular publication “Shaping Up for E-Commerce: Institutional Enablers of the Organizational Assimilation of Web Technologies,” has been cited over 1000 times.
4. Serves as [Senior Editor of the Journal for Organizational Computing and Electronic Commerce](#), a prestigious international research journal (Taylor & Francis Publishing), with full oversight over cybersecurity research. He is also on the editorial board of the *Journal of Strategic Information Systems*.
5. Recognized as a renowned cybersecurity and change management expert, Dr. Chatterjee served on the Corporate and Community Boards of Cybersecurity Collaborative, a confidential forum for chief information security officers (CISOs). He was also part of the 'CISO SWAT Team for CISOs,' a team of world-class experts who are available on short notice to help fellow CISO members.
6. Selected as a cybersecurity subject matter expert to review funding proposal submitted to National Nuclear Security Administration, Department of Energy.
7. [Recognized by the Vice Director, Department of Foreign Experts Affairs, Zhejiang Province, China, May 2019](#).
8. [Recognized by Terry Public Relations for having a positive impact on Terry/UGA](#)
9. [Recognized by Cybersecurity Practitioner for “Inspiring Others.”](#)
10. A demonstrated record of success in public speaking. His speaking engagements range from [keynote addresses](#), to [speeches](#), [corporate webinars](#) and [workshops](#), [TV and radio interviews](#), and [CXO panel discussions](#). Dr. Chatterjee travels around the world speaking to a wide range of audiences from practitioners to academics, students, and the general public.
11. [Recognized by the CEO and Executive Director of Research, Robert Francis Group, for industry thought leadership](#).

12. [Dr. Dave Chatterjee's Technology Roundtable](#) -- Distinguished business leaders, award winning Chief Information Officers, and other renowned thought leaders have attended and spoken at Dr. Chatterjee's roundtable discussion events. Topics covered include blockchain, artificial intelligence, data quality, and cybersecurity.
13. Appointed [Visiting Professor \(Adjunct Associate\) at Duke University's Pratt School of Engineering](#) in 2021, to teach a class in the Master's program on Cybersecurity.
14. Chaired and served on major university and college level committees to bring about significant positive change that resulted in better unit performance assessment mechanisms, superior course offerings, and more competitive programs. [The Vice-Provost recognized his impactful work as Chairman of the UGA's Program Assessment and Review Committee.](#)
15. Distinguished record of teaching at all levels – undergraduate, MBA, Executive/Professional MBA, and Ph.D. [Please follow this link to read testimonials from former students.](#) [Received very positive feedback for teaching in the Huber Executive Leadership Program.](#)
16. [Recognized numerous times for contributions towards the career development of students.](#)

3. INDUSTRY THOUGHT LEADERSHIP

Frequently invited to deliver keynote addresses, speeches, conduct corporate webinars and workshops, moderate CXO panel discussions, and give expert interviews.

46 Kent Hills Lane, Wilton, CT 06897 Phone: 203-429-8951

Feb. 20, 2021

Dr. Dave Chatterjee
University of Georgia
Duluth, GA.

Dear Dave,

It has been a pleasure working with you and having you as a member of the RFG 100 over the past two-plus years. You may not be aware of it but the CxOs and Managing Directors of the 100 Fortune 500 accounts with which we work are responsible for 35 percent of the F500 IT spend, or approximately \$220 billion. The insights and thought leadership that you provide to our sessions has a positive impact, has stimulated numerous discussions in transformative ways, and are truly appreciated by us and the RFG 100 community at large.

In December 2018, you presented “Cornerstones of a High-Performance Security Culture” to our RFG 100 Summit in New York City. If you remember, your 30-minute presentation ended up running long due to all the questions from the participating executives. Since then, you have actively participated in our face-to-face Summits and bi-weekly video conferences. In April 2019 you were a panelist for our RFG 100 Summit discussion on “Aggregate Risk Controls, Norms and Thresholds.”

When we talked in the fall of 2020, you offered to share with the RFG 100 IT executives your research on building a culture of preparedness and high reliability. We took you up on your offer and in December 2020, we held an hour-plus video conference on the topic. You provided the keynote, which we combined a panel of three industry experts and practitioners, to drill down on the topic. We had a strong turnout and very interactive discussion, especially since it was so close to the Christmas holiday season when so many individuals are off on vacation. The topic is a hot topic for our executives as they run and support systems that must be operational 24x7x365 and living in the COVID-19 work-from-home environment has made that effort more challenging. Your insights and thought leadership were greatly appreciated.

I also want to thank you for the insights you have provided Adam and I on our overall work efforts and even some personal elements. We appreciate all you have done for us and look forward to continuing our relationship and gaining from your thoughtful contributions throughout the coming year and beyond.

Sincerely,

A handwritten signature in black ink, appearing to read 'Cal Braunstein', is written over a horizontal line.

3.3 Webinars

- "The Coronavirus Pandemic Effect – How can we grow from this experience?" A webinar hosted and moderated by Dr. Dave Chatterjee. Panelists: Craig Holman, Revenue Leader, Government Brands LLC; Jonathan Killian, Executive Director, Creative and Brand Development, CNN International; and Jordan Spence, Senior IT Strategy Consultant at Gartner, April 15, 2020.
- [Cybersecurity Preparedness: A Holistic Perspective, Huber Engineered Materials \(HUBER\), Terry College Executive Education, The University of Georgia, Feb 28, 2020.](#)
- [RFG 100 Insight Teleconference Q&A: "Executive Responsibility for False Security Corporate Filings and Breaches," April 2, 2019.](#)

- ["Cybersecurity Perspectives from the U.S. Healthcare Industry," Cybersecurity Collaborative, February 14, 2019.](#)
- ["High Performance Culture is Essential in Cyber Warfare," Cybersecurity Collaborative, December 6, 2018.](#)
- ["Establishing a Security Culture of Joint Ownership, Partnership & Accountability Between Business and Technology Leaders," Cybersecurity Collaborative Q&A, Oct 24, 2018.](#)

3.4 Corporate Workshops

- [Cybersecurity Preparedness and the Evolving Role of Artificial Intelligence \(AI\), Georgia GMIS Conference, Athens, GA, April 30, 2019.](#)
- "Enterprise Digitization Trends and Implications," Centers for Disease Prevention and Control (CDC) University Workshop, Atlanta, GA., Nov 28, 2018.
- "IT Strategic Planning," UGA's Carl Vinson Institute of Governance sponsored Georgia-GMIS Conference for senior-level technology executives in local and public government agencies, Savannah, GA, USA, Oct 9, 2017.
- "Life Aboard A U.S. Nuclear Submarine: What Has That Got To Do With Cyber Security?" Society for Information Management (SIM) Atlanta Chapter Meeting, Atlanta, GA, USA, Nov 16, 2017.

3.5 CXO Panel Discussions

- [Panelist, Aggregate Risk Controls, Norms, and Thresholds, RFG 100 Digital Business Transformation Summit, April 11, 2019, New York City.](#)
- [Panelist, Information Security Challenges, SecurEnds, April 4, 2019, Atlanta, GA.](#)
- Moderator, “Impact of Artificial Intelligence/Machine Learning on the Future of the Work Force,” at UIBS GeorgiaTech CIBER Seminar, Georgia Tech, April 4, 2018.
- Moderator, "Artificial Intelligence: The Future Tech That’s Happening Now," Premier CIO Forum, Atlanta GA, April 13, 2017.
- Panelist, “CIO Paradox: Contradictions on IT Leadership,” PremierCIO Forum, Atlanta, GA, March 30, 2016.
- Moderator, “Enterprise Data Governance in a Big Data Environment,” PremierCIO Forum, Atlanta, GA, March 31, 2015.
- Moderator, “Who is Responsible for Information Security? IT or Business or Both,” CIO Forum and Executive IT Summit, Atlanta, GA, April 15, 2014.

4. PRACTITIONER MENTORSHIP

Over the years, I have strived to do my part in inspiring and mentoring practitioners, many of whom happen to be my former students. Their thoughts and experiences about my contributions are presented in the following exhibits.

Exhibit 1. Tim Prosser, Global Director, Product Marketing, Akesis Inc.

Tim Prosser
Akesis, Inc
5129 Commercial Circle
Concord, CA 94520
2/19/21

To Whom it may concern:

I was introduced to Dr. Dave Chatterjee as my instructor in IT during the UGA EMBA (7) program in 2008. Dave is an excellent instructor and is very open and accessible to his students but also a great advisor/mentor.

I kept in close contact with Dr. Chatterjee in the years following my graduation and have come to rely on his insights, advice, and his generous sharing of his very wide network. Dave has helped me over the years in any way he could and not only on subjects of IT and IT management. In 2014-2017, I was tapped by my company to develop a global education department and infrastructure. Dave was an invaluable mentor for me.

Recently, I joined a small start-up and was the only senior management member with a strong IT background therefore resulting in my additional role as CTO for Akesis, Inc. At that time, Dave introduced me to his IT network group and to the high-power Robert Frances Group to which he is a member. Both those resources have been key for my amateur role as a CTO.

Dr. Dave has been such a great resource for me that I have introduced him to members of my network and have received genuine expressions of gratitude for the introduction from them. Dave has embraced them as if they were his own students by proxy. I am grateful to have such a strong advisor and friend in my network.

Sincerely,

Tim Prosser
Global Director Product Marketing, CTO
Akesis, Inc.

Exhibit 2. Joseph Savocca, Senior Manager, Business Transformation, CFGI

Dr. Chatterjee has been instrumental in my career development as a mentor. After being 6 years removed from graduating UGA and gaining strong career growth, I was in search of finding a mentor to challenge me unlock my true potential. After reaching out to Dr. Chatterjee, our relationship started taking off, specifically enabling me to start providing back to the MIS program that positioned me so well for success. Creating this relationship with UGA, from sponsoring projects to speaking every semester on RPA, has fueled my desire to mentor students post-college and help revamp the mentoring program at my firm. Because of this, and the support from Dr. Chatterjee, I am now looked at, within a firm of 500+ employees, as one of the top leaders relating to upskilling the people within the practice.

Beyond the connectivity to UGA, Dr. Chatterjee has been a thought-leader in my eyes. I'm able to leverage him as a sounding board to new concepts in looking to penetrate the market and be challenged in a clear, concise way that has seen greater penetration in target audience. His empathy and true genuine nature of supporting his former students has allowed, what is a professional relationship, to turn into a more personal one. I'm blessed to have had the opportunity to have Dr. Chatterjee enter my professional career because since then, I've continued to unlock potential I did not know existed that has created an inflection point of fast-tracking to become one of the youngest partner of my firm. I'm indebted to him for his support and have done my best to emulate his qualities to truly treat colleagues as people first, colleagues second. Now, with my recent move back to the city of Atlanta and the backing of my firm to grow out our office, my top priority is to continue to strengthen my relationships with Dr. Chatterjee and strengthening the partnership with the MIS program supporting the next great minds.

Joseph Savoca
Senior Manager, Business Transformation
CFGI

Exhibit 3. Nancy Du, Financial Advisor, Ashford Advisors

I met Dr. Chatterjee in 2009 while I was at Terry Full-time MBA program. I attended his E-commerce class and really enjoyed it. As a Chinese student, I usually was quiet and shy in most classes. Dr. Chatterjee encouraged me to be more engaged in class discussions and presentations. He valued my perspective and offered me opportunities to share my experience and knowledge with the class. He made the subject easy to understand and apply to real world issues. I was so glad that I took that class.

After I graduated from Terry, I stayed in touch with Dr. Chatterjee. In the past 10 years, he has been a great friend and a fantastic mentor in many areas.

He cares about youth in our community. When my son was in college, I had many conversations with Dr. Chatterjee about parenting and how we can help younger generation grow and overcome challenges. I attended his workshops for high school students and parents. He brought young college graduates to share their experience with high school students. The workshops were very practical and created environments for us to share our perspectives. Dr. Chatterjee is passionate about helping younger generation and parents and he devoted his time to our community. When I asked him to have a conversation with my son (A college student), he accepted the request and had a few conversations to guide my son to identify his career path.

I have attended Dr. Chatterjee's TECHNOLOGY ROUNDTABLE EVENTS in the past 4 years. Dr. Chatterjee bring business/technology leaders to this meet-up and make sure we get connected and become a resource to each other. He creates a great environment for us to share and learn from each other. I have enjoyed the past events and will continue to be part of this community.

It is a privilege to stay connected with Dr. Chatterjee in the past 10 years and he has made great impact in my professional life. His passion of helping students grow have inspired me help people I come across in my financial service career path. He is a great asset in our community.

Nancy Du
Financial Advisor
Ashford Advisors

February 20, 2021

Mentor/Mentee Relationship with Dr. Chatterjee

It has been a privilege to have Dr. Chatterjee as a mentor over the past few years. I graduated from the University of Georgia in May 2017 with a BBA in Management Information Systems, and first crossed paths with Dr. Chatterjee in his undergraduate class on Information Systems (IS) Leadership in Fall 2016. Since then, we have maintained a mentor/mentee relationship in which Dr. Chatterjee has provided his insight on different professional and personal matters of mine. I have enjoyed getting to know Dr. Chatterjee since my undergraduate days and look forward to cultivating our relationship.

Dr. Chatterjee is an incredible professor to learn from. I particularly enjoyed his course not only because of the wide array of interesting information systems and technology topics that were covered, but also because of his teaching style. I recall regularly participating in the Socratic method. This was critical to my development as a young professional. Computer science and MIS are fields that can very quickly become very quantitative, computational, and/or analytical heavy. The world of bits can lack conceptual discussions at times and focus, sometimes excessively, on computer languages, tools, and processes. Dr. Chatterjee's IS Leadership course was an incredible refresher in understanding questions surrounding *what*, *why*, and *how* technology functions in the world around us. It allowed me to view technology through a new strategic lens and to understand the empathetic side of tech and information systems, and how one can succeed in this ever-changing, hypercompetitive world.

Recently, Dr. Chatterjee has been an immense source of support as I am currently undergoing a pivotal career transition. Post undergrad, I joined a Big Four firm and became a Senior Consultant in the Digital Transformation practice. Feeling uninspired and craving adventure and the opportunity to build something of my own, I have joined my family's antique and decorative rugs company where I intend to conduct an end-to-end digital transformation of our interior design business. This entails building out our e-commerce platform, crafting our digital strategy, and scaling our business through marketing and growth. The decision to leave white-collar consulting services and become an entrepreneur was a daunting one. Dr. Chatterjee was a big part of gaining the confidence to enact this radical change. I spoke with Dr. Chatterjee on several occasions and outlined my current professional environment and what future I envisioned for myself. He was helpful in cutting out the noise and identifying *what* professional change I wanted, *why* I wanted this change, *and how* this would be enacted. It was reassuring to have the understanding and support of a thought leader like Dr. Chatterjee.

I am honored to have Dr. Chatterjee as a mentor and friend. In a world that seems to be increasingly noisy and fast-paced, it's a pleasure to have someone who can provide genuine, thoughtful insight. I look forward to maintaining my relationship with Dr. Chatterjee, and I am excited for the many years of future learning to come.

Sincerely,

Ali Tavakol

Director of Marketing & Product Mgmt. | Vintage Persian Rugs

5. TECHNOLOGY ROUNDTABLE DISCUSSION EVENTS

I have been running technology related knowledge sharing meet-ups for about 5 years now. Launched in the Fall of 2016 as [Dr. Dave Chatterjee's Student Networking Social](#), the event evolved to a roundtable discussion and networking format, where we would meet at a restaurant for dinner and reflective discussions. Distinguished business leaders, award winning Chief Information Officers, and other renowned thought leaders have attended and spoken at this event. Topics covered include blockchain, artificial intelligence, data quality, and cybersecurity. The invited attendees are my former students and friends from industry and academia. The following exhibits provide a glimpse of the programming.

Exhibit 1. Technology Roundtable Events

TECHNOLOGY ROUNDTABLE EVENTS

Launched in the Fall of 2016, Dr. Debabroto 'Dave' Chatterjee's Student Networking Social has evolved to a technology roundtable discussion and networking event. Distinguished business leaders, award winning Chief Information Officers, and other renowned thought leaders have attended and spoken at this event. Topics covered include blockchain, artificial intelligence, data quality, and cybersecurity.

6.5 Research Support/Sponsorship

- Over the years, my research has been supported by numerous organizations (in the private and public sector) such as Centers for Disease Control and Prevention (CDC), Duke University, Ebix, Children’s Health Care of Atlanta, The Boeing Company, SAP, Home Depot, Cisco, Graphic Packaging International, The Coca Cola Company, Infosys, and Macon-Bibb County of Georgia (1997-2017)
- SAP Research Grant (2011).

- Advanced Practices Council Research Grant, Society for Information Management (2008).
- Terry Sanford Research Award, Terry College of Business, The University of Georgia (2005).
- Leadership Research Consortium Grant, Institute of Leadership Advancement, Terry College of Business, The University of Georgia (2004).
- Terry Sanford Research Award, Terry College of Business, The University of Georgia (2004).
- Advanced Practices Council Research Grant, Society for Information Management (2001).
- University Dissertation Grant, Rovetta College of Business, Florida State University (1997).

7. TEACHING

Taught with great distinction at all levels – Undergraduate, MBA, Executive MBA, Professional MBA, and Ph.D.

Currently Teaching

- Information Technology and Strategy (Professional MBA)
- IS Leadership (Undergrad MIS Elective)
- Business Process Management (Undergrad MIS Core)
- Enterprise Digitization Trends and Implications (Freshman Odyssey Seminar)
- Global Digitization Trends (Terry Study Away Programs)

Courses Taught

- Management Information Systems (MBA Core)
- Information Technology and Strategy (Executive MBA Core)
- Digitization Trends and Implications (Freshman Odyssey Program)
- Doctoral Seminar on IT Management (Ph.D.)
- Internet Technology and Strategy (Executive MBA Core)
- Information Resource Management (Undergrad MIS Core & MBA Elective)
- Strategic IT Management in a Global Firm (UNC Chapel Hill's Global OneMBA Program)
- Information Management and Analytics Technology for Accountants (UNC Chapel Hill's Masters of Accounting Program)

7.1 Executive Education & Training

- [Cybersecurity Preparedness: A Holistic Perspective, Huber Engineered Materials \(HUBER\), Terry College Executive Education, The University of Georgia, Feb 28, 2020.](#)
- [Developed and delivered a customized corporate training workshop on Integration of Emerging Technologies for the Terry College Huber Executive Education program \(Nov 14, 2019\).](#)
- Developed and taught the core IT course titled ‘Information Technology and Strategy’ in the Terry College Executive MBA program and Professional MBA program (2003 – Present).
- Developed and taught the course titled ‘Strategic IT Management in the Global Firm,’ in Global OneMBA program for UNC, Chapel Hill from 2011 to 2015.
- Taught a course on IT Value Management in the Information Technology Leadership Program (ITLP) provided by the Carl Vinson Institute of Government, The University of Georgia, for the Georgia Chapter of Government Management and Information Sciences (GMIS) in Savannah, GA. (2012)
- Hearst Corporation Executive Education Workshop, IT and Strategy Group, “Developing and Leveraging Electronic Partnering Capabilities,” Colbert, GA. (2007)
- SIM APC Quarterly Executive Meeting and Workshops on E-Business (2001-2002)

7.2 Mentoring & Executive Coaching

- Coached and mentored several students from the Executive MBA program. Reviewing the 360 Leadership Assessment results, crafting a leadership development plan, setting benchmarks, and monitoring and guiding progress were some of the key activities and elements of the program.
- Mentored undergraduate students on business process management (BPM) related research projects that led to them presenting at the 2017 Center for Undergraduate Research Opportunities (CURO) Symposium. Received a letter of recognition from Provost Pam Whitten dated April 7, 2017.

7.3 Directed Independent Studies and PhD Dissertation Committees

Directed several independent studies at the graduate and undergraduate level and also served on Ph.D. dissertation committees.

- “Transformational Change in the Medical Transcription Industry,” Student: Sue McGrogan (Executive MBA Program)
- “Moving Beyond the Legacy of Forced Adoption of RFID,” Student: Kelly Blust (Undergrad MIS Program)
- “STARinU Case Study,” Student: Matt Lischke (Undergrad MIS Program)
- Dissertation Committee Member, “Self-Regulated Learning Strategies for the Power User of Technology,” Student: Chris Kadlec (MIS Ph.D. Program)
- Dissertation Committee Member, “The Team Leader Technology Facilitation Role in Information Systems Project Virtual Teams,” Student: Dominic Thomas (MIS Ph.D. Program)
- Dissertation Committee Member, "Business-driven Information Systems Change: How Companies Anticipate, Prepare for, and Respond to the Need for Change," Student: Justin Cochran (MIS Ph.D. Program)
- "How can small business use the Internet to increase sales?" Student: Wayne Akins (Executive MBA Program)
- "US Homeowner Association Adoption of IT Tools," Students: Donny Rolader, Neal Steffin, Stoddard Mannikin, and Ronald Hillman (Executive MBA Program).
- "Moving Towards a More Responsive and Agile IT Infrastructure: Intel SAP Re-platform Case Study," Student: Jing Chen (Executive MBA Program)
- Dissertation Committee Member, "Understanding the Organizational Impact of Integrated IT Application Infrastructure through Agility: The Case of Enterprise Resources Planning Infrastructure," Student: Daniel Chen (MIS Ph.D. Program)

7.4 Directed Consulting Projects

<ol style="list-style-type: none"> 1. Future of Car Buying and Selling, Mercedes-Benz USA, Atlanta, Georgia 2. Enhancing Data Literacy at UGA, Athens, Georgia 3. Future of Banking, Citizens Bank, Greater Boston Area 4. New Projects Online Interface and Database Design, UGA Archway Program, GA . 5. Demolition Tracking System, Brunswick County, GA. 6. IS Audit, Pulaski County, GA. 7. CRM Systems Evaluation and Recommendation, Graphics Packaging International, GA. 8. Search Engine Optimization, Hart County Industrial Building Authority, GA. 9. Wi-fi Audit, Hartwell City, GA. 10. Parks and Recreation Management System, Sumter County, GA. 11. iControl Technology Evaluation, Cisco Inc. 12. Femtocell Technology Evaluation, Cisco Inc. 13. Residential Gateway Solutions Evaluation, Cisco Inc. 	<ol style="list-style-type: none"> 14. Mobile BI Solutions Evaluation, Graphic Packaging International. 15. Web 2.0 Solutions Evaluation, Graphic Packaging International. 16. VoIP Solutions Evaluation, Graphic Packaging International. 17. Email Retention Management System, Graphic Packaging International. 18. Voice over IP, Zaxby's Inc. 19. Technology Needs Assessment, Patricia's Spiritwear. 20. Inventory Tracking System, Moultrie Community College, Moultrie, GA. 21. HR Payroll System – Vendor Evaluation, Southeast Georgia Healthcare System, Glynn County, GA. 22. Customer Relationship Management System, Zaxby's Inc. 23. Disaster Recovery and Business Continuity Planning, Zaxby's Inc. 24. Document Imaging System, Zaxby's Inc. 25. Mail Tracking System, Zaxby's Inc. 26. Restaurant Evaluation System, Zaxby's Inc. 27. Database Analysis and Design, Zaxby's Inc.
--	---

7.5 Teaching Recognitions

- Over the years, I have received several [compliments](#), awards, and honors. One student feedback that succinctly captures my teaching style and approach is presented below:

“Dr. Chatterjee, I have thoroughly enjoyed your class this semester. Your Socratic method of teaching allowed me to think differently about the future of MIS, and how I can develop myself to be successful in this field. I will be recommending your class to the younger MIS majors I know.” (McKenzie Varn Cunningham, April 24, 2015)
- [Received very positive feedback for teaching in the 2019 Huber Executive Leadership Program.](#)
- Outstanding Exec MBA Professor of the Year
- Outstanding Teaching Faculty Honoree
- Multiple nominations to Terry College Teaching Award
- Multiple nominations to UGA Senior Teaching Fellow Award
- Invited participant to UGA Academic Affairs Faculty Symposium
- Alpha Kappa Psi, MIS Teacher of the Year Award, The University of Georgia
- Recognized for innovative teaching on the UGA home page in 2008 and in the Terry College Alumni magazine in 2008 and 2009.
- Invited participant to the ACM Education Board’s (NSF Funded) Future of Computing Education Summit, June 25th and 26th, 2009, Washington DC.

7.6 UGA Career Center Recognition

Recognized literally every year for “greatly contributing to the career development of UGA students.” The latest recognition was received on December 12, 2019.

8. INSTITUTIONAL SERVICE

8.1 The University of Georgia (2001-Present)

Served on numerous faculty leadership teams and governance committees at the department, college, and university level. Highlighted below are some significant service commitments and experience.

Member, Terry College of Business's EMBA/PMBA Committee (September 25, 2018 – Present)

- Served on the Executive MBA Committee and contribute to program development and delivery discussions.

Member, The University of Georgia's Data Literacy Committee (March 7, 2018 – Present)

- Accepted the invite of the Vice President of Instruction to serve on The University of Georgia's Data Literacy Committee. The purpose of this committee is to determine how data literacy and quantitative reasoning skills may be incorporated into the current curriculum to improve student learning and success.

Chairman & Member, UGA's Program Review and Assessment Committee (2013-2017)

- As part of this university wide leadership team, studied and authored multiple academic program and unit performance review reports. The reports covered every aspect of an unit's operation and performance – from mission and goal alignment to governance structure, FTE distribution rationale, productivity assessment metrics, research productivity, teaching effectiveness, mentoring mechanisms, success and viability of the different degree and non-degree programs offered, and physical and technological infrastructure.
- Elected Chairman of this prestigious committee in September 2016.

- Guided the academic program review policy and procedural changes through several committees and subcommittees before it was passed by the University Council in November 2016. Through these changes the review process will be more focused and faculty time commitment will be minimized.

Member, Student Learning Outcome Executive Committee (2016 – 2017)

- Served on this committee as representative of Program Review and Assessment Committee.

Member, UGA Provost’s Advisory Committee on Academic Program Review (September 2015-2016)

- Served on a select committee of university leaders to improve the academic program review process. Played a key role in recommending governance process changes that could potentially result in significant cost savings and also enhance faculty productivity.

Member, Search Committee for Program Review and Assessment Committee (PRAC) Coordinator (2016)

- Served on a select committee of university leaders and administrators to conduct a national search for PRAC coordinator.

Chairman & Member, Terry College of Business MBA Committee (2006-2015)

- The MBA Committee provides oversight to all types of MBA programs offered – Full-time MBA, Professional MBA, and Executive MBA.
- During my tenure on this committee, we were involved in several initiatives ranging from branding, positioning of the programs, redesigning the curriculum, and preparing for re-accreditation.
- Served as Chairman of this committee from 2013-2015.

Member, UGA's Enterprise IT Architecture Committee (2014-2015)

- As the faculty representative on this university committee for enterprise IT governance, I provided feedback and guidance on how to improve the customer experience with IT services.

Other Institutional Service Activities at The University of Georgia

- Chairman, MIS Department Scholarship Committee (Spring 2013)
- Graduate Coordinator, MIS Ph.D. Program (2005 – 2007).
- Committee Chair, MIS Capstone Course Review Committee (2006).
- Member, *Faculty Panel*, MBA Open House, UGA (2006).
- Program Coordinator, MIS Department Workshop (2002 – 2005).
- Committee Member, Terry College International Business Committee (2002 – 2005).
- Program Coordinator, Center for IS Leadership (CISL) Distinguished Speaker Series (2002 – 2004).
- Member, MIT Placement Committee, Terry College of Business, UGA.
- Member, MIT Policies Committee, Terry College of Business, UGA.
- Member, MIS Undergraduate Admissions Criteria Committee, Terry College of Business, UGA.
- Member, *Faculty Panel*, MBA Minority Recruitment Initiative, UGA (2004).
- Master of Ceremonies, Master of Ceremonies – IS Leadership School (2003).
- Press Liaison – IS Leadership School (2003).

8.2 Washington State University (1997-2001)

- Member, *MIS Faculty Recruiting Committee* at Washington State University.
- Member, *MIS Curriculum Committee* at Washington State University.
- Member, *Course Software Review Committee* at Washington State University.
- Member, *SAFECO Scholarship Committee* at Washington State University.
- Member, *International Programs Scholarship Committee* at Washington State University.

9. IS ACADEMIC AND PRACTITIONER COMMUNITY SERVICE

9.1 Editorial Board and Peer Review Service

- Senior Editor, *Journal of Organizational Computing and Electronic Commerce*, appointment effective from Jan 11, 2018.
- Reviewer, Cybersecurity Projects, National Nuclear Security Administration, Department of Energy.
- Editorial Board Member, *Management and Business Review*, Dec 5, 2018.
- Recognized by Elsevier for the Journal of Business Research paper review on October 7, 2016.
- Editorial Board Member, *Journal of Strategic Information Systems*. (2005 - Present).
- Associate Editor, *Journal of Association for Information Systems*. (2006 - 2009).
- Editorial Review Board Member, Fulbright Senior Specialists Review Committee for IT. (2005 - 2008).
- Reviewed for premier journals such as *MIS Quarterly*, *Information Systems Research*, *Journal of Management Information Systems*, *Management Science*, *Journal of Association for Information Systems*, *Journal of Strategic Information Systems*, *Data Base*, *IEEE*, and *Journal of Business Research*.

9.2 Academic Conference Services

- Reviewed for premier academic conferences such as *Academy of Management*, *International Conference on Information Systems*, and *Association for Information Systems (AIS) Americas Conference*.
- Program Committee Member, *Conference for Information Systems and Technology*, Seattle, WA. (2007).
- Associate Editor, *International Conference on Information Systems -- IT and Strategy Track*, Washington. (2004).
- Committee Member, *7th INFORMS Conference on Information Systems and Technology*, San Jose, CA. (2002).
- Discussant, *Academy of Management*, Denver, Colorado. (2002).
- Discussant, *Academy of Management*, Denver, Colorado. (August 2002).
- Discussant, *International Conference on Information Systems*, Brisbane. (2000).
- Session Chair, *Academy of Management -- IS Track*. (August 1999).

9.3 External Examiner & Judge

- Promotion & Tenure Evaluation Letter (for Dr. Parag Kosalge), Grand Valley State University, January 2009.
- External Examiner, Master of Commerce Thesis: “The Shareholder Wealth and Trading Volume Effects of IT Infrastructure Investments in a Developing Country,” The University of Cape Town, South Africa. (2004).
- Judge, International Business Case Competition, organized by the Indian Institute of Management, Calcutta, 2002.

9.4 Society for Information Management (SIM) Atlanta Chapter Leadership (2007-2015)

- Successfully nurtured the evolution of the Society for Information Management (SIM) Atlanta Chapter for nearly a decade. Society for Information Management (SIM) is a premier non-profit national community of senior information technology (IT) practitioners, reputed academics, and other thought leaders.
- Elected Chairman of the Board for seven consecutive years. During this period, worked closely with business leaders to run the organization. From vision development to day-to-day operations, I have been a very hands-on leader in managing the organization.
- During my tenure as Chapter President, **SIM Atlanta, through donations and contributions, indirectly touched 6.5 million people and over 100 other non-profit organizations.** Each year several scholarships were given to outstanding students of SIM member institutions in the region.
- As SIM Atlanta Chairman, I was also instrumental in starting the **SIM Atlanta Student Fellowship program** where the selected students were not only awarded \$1000 scholarship money but also got to attend all SIM Atlanta events for one full SIM year (September to June), network with members, and work on special projects and activities that will give them a flavor of IS leadership in action.
- I was nominated for the **SIM Leader of the Year** award in 2014 and 2009.
- The following testimonials are reflective of my contributions as the leader of this organization:

“I’ve known Dave for more than 10 years, and I’ve worked with him on the SIM board. He’s very dedicated to the things that interest him, and his interest in SIM has been a key factor in its success under his chairmanship. He’s a very personable guy, but he doesn’t settle for anything less than meeting his goals. During Dave’s tenure, SIM membership has increased, a golf event was created that has raised hundreds of thousands of dollars for charity, and the quality of speakers at SIM meetings has improved. Some of those changes have come from Dave’s direct work, and some have resulted from key board members who Dave persuaded to participate in SIM’s work. I’m honored to have known Dave and to have worked with him at SIM.”

Harwell Thrasher
Author & Speaker, Founder of Making ITclear, Inc.

“Dave is an exceptional leader and did an outstanding job as Chairman of the Board for the Atlanta chapter of SIM. Under his leadership membership increased, new special interest groups were created, and the content of the meetings were always of great interest to the members. His tireless effort and years of dedication in making SIM one of the best professional groups in Atlanta will always be appreciated by the many members of SIM. Thanks Dave.”

**Jim Montembeau
President, Midpoint Search**

“I have been honored to know Dave Chatterje for over 5 years now through my membership in SIM Atlanta and as a guest speaker at his Information Management classes at UGA. Dave has done a fantastic and often thankless job as the President of SIM Atlanta for many years. He is a consummate professional, very knowledgeable on the issues facing IT Leaders today, and puts in long hours in this volunteer role to help IT Managers network with each other and hear excellent speakers at our monthly SIM meetings. I recommend Dave highly.”

**Lee W. Crump
Group Vice President, Rollins, Inc.**

“Dave has really energized the SIM Atlanta chapter. Dave devotes several hours of time every week, usually behind the scenes and without credit, to ensure that the depth of membership and breadth of activities within SIM Atlanta continues to crest new high-watermarks. He tirelessly promotes SIM International’s activities and opportunities amongst our membership. He brings a wealth of ideas to the table and then works with SIM members and the broader IT community to bring them to fruition. He ensures impeccable execution of all monthly meetings and other SIM member interactions, which has built SIM Atlanta a very solid and professional reputation. In summary, Dave has breathed vitality into SIM Atlanta and we all owe him a deep debt of gratitude and appreciation for the opportunities we have in SIM Atlanta today.”

**Zareer Sigantoria
Senior Director, PMO, DTI LLC.**

“As President of SIM Atlanta, Dave has been instrumental in establishing and growing the partnership between SIM Atlanta and TechBridge, a nonprofit that drives community impact by bringing affordable technology to other nonprofits. Our community has been fortunate to benefit from his leadership and vision that spearheaded the growth of SIM’s annual golf tournament from \$2,000 to \$107,000 in 8 short years and his community-minded spirit that ensured those funds were reinvested in growing the capacity of nonprofits.”

**Carrie Bates Hasting,
Chief Development Officer, TechBridge Inc.**

“I have known Dave for close to 10 years. During this period, he has demonstrated both a passion for and commitment to the greater Atlanta business and university communities. As President of the Atlanta Society for Information Management, www.simnet.com, he has worked tirelessly with his Board to grow and expand the role of Information Technology across business, government and higher education. Atlanta is blessed to have Dave and his talents at work across the public and private commercial landscape.”

Ed Galloway
SIM-RTP Past President and Board Member
Galloway and Assoc., Inc.

9.5 Judge, Georgia CIO of the Year Award (2010 – 2015; 2020)

9.6 Co-Conference Chair, *SIMposium, the SIM International Conference, Atlanta, 2010*

9.7 Conference Host and Executive Advisory Council Member, *CIO Forum and Executive IT Summit*, Atlanta, GA (2009-Present)

10. YOUTH DEVELOPMENT ACTIVITIES

Over the years, I have enjoyed mentoring high school students, offering [summer research projects](#), conducting [motivational workshops](#), and delivering talks on emerging technologies and cybersecurity.

Summer Research Program for High School Students

Over the summer I offer research opportunities to help them:

- Gain greater awareness of how technology can be leveraged to create value.
- Get a better feel for research.
- Enhance creative and out-of-the-box thinking ability.
- Enhance their writing skills.

Speeches/Talks

The following are representative talk titles:

- Global digitization trends
- Emerging technologies and implications
- Realizing your true potential (conducted a motivational workshop at a youth retreat)
- From my journey to yours (A talk delivered at my high school in Kolkata, India, in 2017)
- Smart and safe use of technology

Feedback

The feedback from such talks and workshops have been very positive. The following exhibits present some of the feedback received.

Exhibit 1. Youth Development Workshop Feedback

II. Youth Development Workshops

Jan 28th, Saturday, 11:30 to 1:00 PM -- Making the Most of Your Collegiate Experience/Realizing Your True Potential -- Part 2

Guest Panelists: Hannah Gillon (UGA), Sean Pollit (UGA), Katlyn Taylor (UGA/Advocate) and Dr. Susanna Wu-Pong Calvert (Director Professional Development Programs, UGA)

Moderator: Dr. Dave Chatterjee

Location: Yugal Kunj Community Center, Duluth, GA

Jan 21st, Saturday, 11:30 to 1:00 PM -- Making the Most of Your Collegiate Experience/Realizing Your True Potential -- Part 1

Guest Panelists: Allison Brodsky (UGA), Rhea Chatterjee (GA Tech), Emily Dong (GA Tech/IBM) and Dr. Russell Mumper (UGA Vice Provost)

Moderator: Dr. Dave Chatterjee

Location: Yugal Kunj Community Center, Duluth, GA.

Dec 25th, Saturday, 1:30 to 3:00 PM -- Realizing Your True Potential

Invited Speaker: Dr. Dave Chatterjee @ YUGAL KUNJ SUMMER CAMP

WORKSHOP PARTICIPANT FEEDBACK

I would like to thank you so much for giving me this amazing opportunity of learning from you and getting exposure to the business world. I have learned a lot that I would not have been able to on my own. -- Sahana S., August 2017

"I believe this was a great workshop for incoming college students. Even though I tried my best, ran an organization, and was very involved in high school. I wish someone would have come to my school and spoken w/us this way. I feel a lot of students lack this vital information." — Chloe H., January 2017

"The panelists were great, they were knowledgeable and gave relatable advice. I am very glad I could attend today. Thank you for having me." — Jake G., January 2017

"Loved it; Very impressive; Great discussions." — Victor C., January 2017

"I got some really good pointers on how to make the most of my time. I learned a lot about how to find what I am passionate about." — Shrestha S., January 2017

I really enjoyed it and for the actual college students to come and share relatable scenarios." — Lake B., January 2017

FEEDBACK FROM 2019 STUDENT SHREYA BASIREDDY

Shreya Basireddy <shreyabasireddy@gmail.com> Sat, Jan 11, 2020 at 11:17 AM

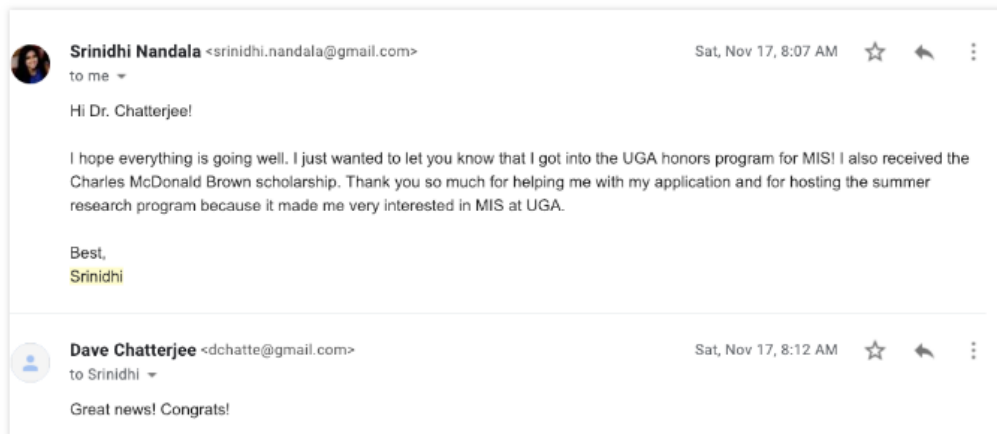

To: dchatte@gmail.com

Thank you for allowing me to participate in the summer research program. It was an amazing opportunity to research a field that I am interested in. I learned a lot about Artificial Intelligence, the Internet of Things, and Wearable devices. Before I started this program, I did not understand much about AI. But under your guidance, I was able to immerse myself in the subject and research various topics in the field. Not only did I learn about AI, but I also gained valuable knowledge on how to research and write a successful research paper. This was valuable knowledge that I would be taking with me to succeed in college.

Sincerely,

Shreya Basireddy

FEEDBACK FROM 2018 STUDENT SRINIDHI NANDALA

The screenshot shows an email thread. The first email is from Srinidhi Nandala to Dave Chatterjee, dated Saturday, November 17, 2018, at 8:07 AM. Srinidhi expresses her gratitude for being accepted into the UGA honors program for MIS and receiving a Charles McDonald Brown scholarship. She mentions that the summer research program made her very interested in MIS at UGA. The second email is a reply from Dave Chatterjee to Srinidhi, dated Saturday, November 17, 2018, at 8:12 AM, congratulating her on the news.

Hi Dr. Chatterjee!

I hope everything is going well. I just wanted to let you know that I got into the UGA honors program for MIS! I also received the Charles McDonald Brown scholarship. Thank you so much for helping me with my application and for hosting the summer research program because it made me very interested in MIS at UGA.

Best,
Srinidhi

Happy New Year!
Kaushal gandikota <kgandikota459@gmail.com> Thu, Jan 23, 2020 at 12:50 PM
To: "Dr. Dave Chatterjee" <dchatte@gmail.com>

Hello Uncle!
I just wanted to reach out and say Happy New Year! I hope that your past year has been wonderful, and I apologize for not being in touch throughout freshman year thus far. College has been amazing so far, and I am currently an Industrial Engineering major at Georgia Tech. Once again, thank you for the research opportunity that you gave me, as it set me up for success in my career.
Regards,
Kaushal Gandikota
