

FTMBA EMPLOYMENT STATISTICS

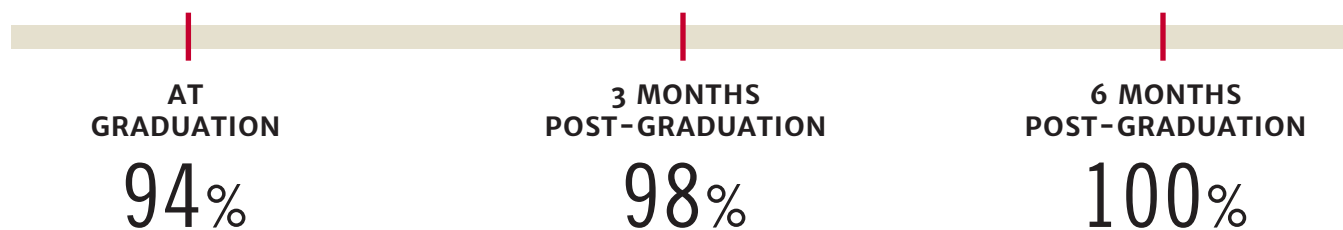

CLASS OF 2022

I am pleased to present the employment results from UGA's Full-Time MBA Class of 2022. This class endured the pandemic and all the adjustments that came with it to finish with 94% employed before graduation. The final employment result, as identified by the MBA Career Services and Employer Alliance, at 3 months after graduation, was a record-breaking 98%. The salary numbers increased 20% year over year to an average of \$121,000. The vast majority of the class received signing bonuses ranging from \$5,000 to \$67,800. Our careers team welcomes employers to recruit both on-campus and virtually and can help you with all your MBA hiring needs.
